

## Info Letter of Motivation

**Dear applicants,**

we ask you to submit a letter of motivation (max. 1 page) for the application to dynaMENT. The letter should include statements about your motivation, interests, and expectations for the Mentoring Program.

- Why do you want to participate in the Mentoring Program?
- Which questions/topics do you wish to discuss with your mentor?
- Do you have outcomes you wish to walk away with following the participation of the program?
- What expectations do you have of your mentor (e.g. professional position, personality)?
- Do you already have a specific person in mind (needs to be someone you are not directly working with)?

If you use the **online application**, please upload your Letter of motivation with your other documents.

You can also **apply via e-mail**. Then please do not formulate your letter as text within the body of an email but send us all documents (CV, letter of motivation, and signed application form) together in a separate attachment e.g. as a PDF file to mentoring@dynaMENT.de. We currently do not offer encrypted sending of the application documents by e-mail.

If you do not want to use e-mail you have the possibility to send the documents by post to: Julia Panzer/CUI-Office Luruper Chaussee 149 / Building 610 D-22761 Hamburg (please inform us via call or mail, so we can check if it reached us in time).

Thank you very much. Best regards,

Julia Panzer
